Kirkland, WA. 98033

Merit Homes, Inc. contracted with *Eastside Exterminators* in consideration of a rodent abatement program. The abatement process began on *October 19, 2015*; On that visit we left outside tamper proof bait stations to control the outside population. We have been maintaining those bait stations on a weekly basis and there has been 2% bait consumed in the stations as of this letter.

Rodent Abatement Program is complete.
